Welcome to our PopUp WebShop

You will find a range of virtual products that you can purchase online 24/7 for the next week - *(Tuesday 22nd through to Tuesday 29th September.)*

Using the webshop we are able to show you what the products will look like in advance. Before they are produced .

We will “open” the shop for 1 week only, in which time you can place your orders online . At the end of the week we close the shop, consolidate the orders and only order what has been ordered by you . This way we don't end up with “dead stock” and wasting money.

Due to this process there will be a time delay between the shop closing and the stock been ordered, and then decorated and then delivered to us. Generally this process takes approx 2-3 weeks, to complete . However there is an exception for the sublimated singlets as these are sourced from China and will take approximately 7-8 weeks from the closing of orders.

Personalisation : There is an opportunity to have your name included on the back of the hoodies or tee shirts . You will need to purchase a “Name voucher” for each garment you are wanting to add your name to. You then email info@smashingpromotions.nz along with your invoice number indicating which name for which garment . We will then send you a proof showing you what it will look like. to ensure you are happy, the Font style is limited to Arial only

Any questions you have please email info@smashingpromotions.nz and we will get back to you asap.
